

Grade 2 Table of Contents

Science Category	Week	Topic
Life Science	1	Parts of a Plant, Seed Dispersal
Life Science	2	Parts of a Seed, Germination
Life Science	3	Seed Dispersal
Life Science	4	Food Chains, Uses for Plants
Life Science	5	Life Cycles
Life Science	6	Classifying Animals
Life Science	7	Habitat, Adaptation
Life Science	8	Habitats, Food Chains
Earth Science	9	Fossils
Earth Science	10	Fossils, Extinction
The Ways of Science	11	Classifying
The Ways of Science	12	Observing Properties, Safety
Physical Science	13	States of Matter
The Ways of Science	14	Properties of Matter, Safety
Physical Science	15	Justifying Use of Building Materials
Physical Science	16	Physical Changes in Matter
Physical Science	17	Changing the States of Matter
Physical Science	18	Mixtures
Physical Science	19	Heat Changes Matter
Physical Science	20	Light, Shadow
Physical Science	21	Light and How it Moves
Physical Science	22	Matter and Energy
Physical Science	23	Sound
Physical Science	24	Sound
Physical Science	25	Forces
Physical Science	26	Position, Movement
Physical Science	27	Magnets
Physical Science	28	Electricity
Earth Science	29	Landforms
Earth Science	30	Rocks and Minerals
Earth Science	31	Natural and Man-Made
Earth Science	32	Natural Resources
Earth Science	33	Weather
Earth Science	34	Water Cycle
Earth Science	35	Night and Day, Moon Phases
Earth Science	36	Seasons

Grade 2 Table of Contents

Science Category	Week	Vocabulary Words
Life Science	1	spring, winter, green plant, root, stem, leaves
Life Science	2	seed, seed coat, stored food, germination, label, tiny plant
Life Science	3	scatter
Life Science	4	food chain, model
Life Science	5	life cycle, egg, pupa, chrysalis, caterpillar, adult
Life Science	6	bones, amphibian, reptile, mammal, bird, fish, scale, hair
Life Science	7	habitat
Life Science	8	drought, habitat, survive, food chain, tool
Earth Science	9	fossil, print, model
Earth Science	10	dinosaur, paleontologist, record, extinct
The Ways of Science	11	classify/sort/group, plan
The Ways of Science	12	see, feel, taste, hear, smell, senses, property, process skill
Physical Science	13	matter, space, mass, solid, liquid, gas, state, balance
The Ways of Science	14	using a balance, safety goggles
Physical Science	15	measure, weight, test
Physical Science	16	solid, liquid, gas, melt, freeze
Physical Science	17	heat, melting, freezing, state
Physical Science	18	mix/mixture, process skill
Physical Science	19	temperature, reading a clock, clock/timer, record
Physical Science	20	dinosaur, model, shadow, light, source
Physical Science	21	reflect, shadow, bend, source
Physical Science	22	energy, matter, electricity
Physical Science	23	sound, vibrate, volume
Physical Science	24	pitch, volume, vibrate, sound
Physical Science	25	force, gravity
Physical Science	26	predict, gravity, force, spin, roll, slide, move/movement, back and forth
Physical Science	27	magnet, magnetism, force, pole, repel, attract
Physical Science	28	electricity, energy, store/stored, circuit, battery, D-cell, complete, incomplete
Earth Science	29	landform, mountain, hill, valley, lake, salt water, fresh water, ocean
Earth Science	30	property, classify/sort/group, rock, mineral, observe, recycle, record, texture
Earth Science	31	stream, natural, man-made, full moon, salt water, fresh water, sand/gravel/boulder
Earth Science	32	resource, natural resource, metal, reuse, reduce, recycle
Earth Science	33	weather, temperature, thermometer, tool, anemometer, wind speed, season, predict

Grade 2 Table of Contents

Science Category	Week	Vocabulary Words
Earth Science	34	cycle, water cycle, evaporate/evaporation, model, condense/condensation, sun, weather that falls
Earth Science	35	planet, day/night, rotate, moon, phase, crater, meteor, pattern
Earth Science	36	hibernate, dormant, migrate

Each Week has a corresponding Think Sheet and Concept Builder
